

AWS Backend Engineer(m/f/d)

in Munich 📍

As a young startup dedicated to public transport, our vision is to make buying tickets as easy as possible for passengers. This is why we are developing a function that automatically detects the beginning and end of a journey on public transport. Based on the recognition, it is possible to provide the passenger with the cheapest ticket. Our goal – to improve the driving experience with public transport!

YOUR RESPONSIBILITIES:

As a AWS Backend Engineer, your mission is simple: setting up, maintaining, and evolving the cloud infrastructure of our used Amazon Web Services. You will play an important role at BlueGo and help make public transport ticketing a breeze.

YOUR PROFILE:

- Very fit in handling AWS (especially with Cloudformation, API Gateway and VPC)
- Experience with Go, node.js & DevOps
- Analytical minded
- Eager to learn about new technologies
- Ability to write scalable, robust, testable, efficient, and easily maintainable code

WHY BLUEGO?

- Flexible working hours (work when you are most productive)
- Attractive remuneration
- Pleasant working environment
- Plants and couch in the office
- Opportunity to assume responsibility (if desired)

At BlueGo you can bring your comprehensive knowledge to bear in a open-minded environment and develop yourself further. We are the right place for you if you want to be part of start up with flat hierarchies.
