

Working student Geo Engineer(m/f/d) in Munich 📍

As a young startup dedicated to public transport, our vision is to make buying tickets as easy as possible for passengers. This is why we are developing a function that automatically detects the beginning and end of a journey on public transport. Based on the recognition, it is possible to provide the passenger with the cheapest ticket. Our goal – to improve the driving experience with public transport!

YOUR RESPONSIBILITIES:

As a Geo Working Student Engineer, your mission is simple: optimizing ride detection. You are working on improving the algorithm of ride recognition behind the ticket system. You will play an important role at BlueGo and help make public transport ticketing a breeze.

YOUR PROFILE:

- College student
- Experience with Go, node.js & DevOps
- Study focus: Computer science, geoinformatics or media informatics
- Problem solver and critical thinker
- High degree of independence and initiative
- Active participation in product planning and development
- Eager to learn about new technologies
- Comprehensive knowledge of software development

WHY BLUEGO?

- You take on a leading role in the project and can realize yourself
- Flexible working hours (work when you are most productive)
- Attractive remuneration
- Pleasant working environment
- Plants and couch in the office
- Opportunity to assume responsibility

At BlueGo, you can acquire a wide range of skills in a family atmosphere, which will give you an advantage in your future career field.
